Web Development 101

Andrew Morton

What is the web?

It's not a big truck, it's a series of tubes!

WWW - Network of computers, serving HTML pages to users via HTTP

How do you put things on the web?

Get a domain name (andrewsclasses.com).

Get web hosting (cheapsharedhostingexcample.com)

Point domain name to server IP (DNS)

Upload index.html (FTP)

Types of websites

Personal Profile

Blog

Community

eCommerce

Reference

Events

How do you make an awesome website?

Content

Design

Function

How do you get there from here?

Keep it simple

Explore your options and discuss with others
